IRVING, Texas, Jan. 29, 2026 – Caterpillar Inc. (NYSE: CAT) announced fourth-quarter and full-year results for 2025.

With a record backlog, we enter the new year with strong momentum and a continued focus on delivering long-term value for our customers and shareholders.”

Sales and revenues for the fourth quarter of 2025 were \$19.1 billion, an 18% increase compared with \$16.2 billion in the fourth quarter of 2024. Consolidated Sales and Revenues Comparison

Fourth Quarter 2025 vs. Fourth Quarter 2024

The chart above graphically illustrates reasons for the change in consolidated sales and revenues between the fourth quarter of 2024 (at left) and the fourth quarter of 2025 (at right). Caterpillar management utilizes these charts internally to visually communicate with the company's board of directors and employees.

Total sales and revenues for the fourth quarter of 2025 were \$19.133 billion, an increase of \$2.918 billion, or 18%, compared with \$16.215 billion in the fourth quarter of 2024. The increase was primarily due to higher sales volume of \$2.708 billion. The increase in sales volume was mainly driven by higher sales of equipment to end users and the impact from changes in dealer inventories. Total dealer inventory remained about flat during the fourth quarter of 2025, compared with a decrease of \$1.3 billion during the fourth quarter of 2024. Machine dealer inventory decreased \$500 million during the fourth quarter of 2025, compared with a decrease of \$1.6 billion in the fourth quarter of 2024.

Sales were higher across the three primary segments.

Consolidated Operating Profit

The chart above graphically illustrates reasons for the change in consolidated operating profit between the fourth quarter of 2024 (at left) and the fourth quarter of 2025 (at right). Caterpillar management utilizes these charts internally to visually communicate with the company's board of directors and employees. The bar titled Other includes consolidating adjustments and Machinery, Power & Energy's other operating (income) expenses.

Operating profit for the fourth quarter of 2025 was \$2.660 billion, a decrease of \$264 million, or 9%, compared with \$2.924 billion in the fourth quarter of 2024. The decrease was primarily due to unfavorable manufacturing costs of \$1.030 billion and higher restructuring costs of \$282 million, partially offset by the profit impact of higher sales volume of \$1.072 billion. Unfavorable manufacturing costs largely reflected the impact of higher tariffs. Higher restructuring costs were mainly related to write-downs in the value of inventory in the Rail division.

Operating profit margin was 13.9% for the fourth quarter of 2025, compared with 18.0% for the fourth quarter of 2024. Adjusted operating profit margin was 15.6% for the fourth quarter of 2025, compared with 18.3% for the fourth quarter of 2024.

Other Profit/Loss and Tax Items

- Other income (expense) in the fourth quarter of 2025 was income of \$493 million, compared with income of \$426 million in the fourth quarter of 2024. The change was primarily driven by higher mark-to-market gains for remeasurement of pension and OPEB plans (please see a reconciliation of GAAP to non-GAAP financial measures in the appendix on page 13 to 15) and favorable impacts from total return swap contracts, partially offset by unfavorable foreign currency impacts.
- The effective tax rate for the fourth quarter of 2025 was 23.5% compared to 14.3% for the fourth quarter of 2024. Excluding the discrete items discussed below, the global annual effective tax rate was 24.1% compared with 22.2% for 2024. The increase from 2024 was primarily due to changes in U.S. tax incentives.

The company recorded an \$8 million charge in the fourth quarter of 2025 compared to a \$33 million benefit in the fourth quarter of 2024 for the change in the estimated global annual effective tax rate through the first nine months. APPENDIX

NON-GAAP FINANCIAL MEASURES

The following definitions are provided for the non-GAAP financial measures. These non-GAAP financial measures have no standardized meaning prescribed by U.S. GAAP and therefore are unlikely to be comparable to the calculation of similar measures for other companies. Management does not intend these items to be considered in isolation or as a substitute for the related GAAP measures.

The company believes it is important to separately quantify the profit impact of four significant items in order for the company's results to be meaningful to readers. These items consist of (i) other restructuring income/costs, (ii) pension and OPEB mark-to-market gains/losses resulting from plan remeasurements, (iii) restructuring income/costs related to the divestitures of certain non-U.S. entities in 2024 and (iv) a discrete tax benefit for a tax law change related to currency translation in 2024. The company does not consider these items indicative of earnings from ongoing business activities and believes the non-GAAP measure provides investors with useful perspective on underlying business results and trends and aids with assessing the company's period-over-period results.

Reconciliations of adjusted results to the most directly comparable GAAP measure are as follows:

The company believes it is important to separately disclose the annual effective tax rate, excluding discrete items for the results to be meaningful to readers. The annual effective tax rate is discussed using non-GAAP financial measures that exclude the effects of amounts associated with discrete items recorded fully in the quarter they occur. For the three and twelve months ended December 31, 2025, and 2024, these items consist of (i) pension and OPEB mark-to-market gains/losses resulting from plan remeasurements, (ii) the impact of changes in estimates related to prior years, (iii) the change in the annual effective tax rate, (iv) a settlement of stock-based compensation awards with associated tax deductions in excess of cumulative U.S. GAAP compensation expense, (v) a discrete tax benefit for a tax law change related to currency translation in 2024 and (vi) restructuring income/costs related to the divestitures of certain non-U.S. entities in 2024. The company believes the non-GAAP measures will provide investors with useful perspective on underlying business results and trends and aids with assessing the company's period-over-period results.
